

Local Funds to Repair and Upgrade Elementary and Middle Schools

Pacifica School District (PSD) provides students in our community with a great education. We are committed to preparing every student for a bright future.

Our Schools Require Repairs and Upgrades for Student Safety and 21st-Century Learning

State funding for school improvements is limited, and it has been over 20 years since our district's last education facility bond measure. Old buildings need to be repaired or replaced, and outdated heating systems require updates. Although our schools have received modernizations in the last 20 years, our facilities require significant upgrades to ensure the continued health and safety of every student in Pacifica.

In today's 21st-century world, updated classrooms and technology improvements are essential to building a strong academic foundation and preparing our students for high school, college and the competitive job market of tomorrow.

Local Funding to Upgrade Pacifica Schools

In order to maintain safe schools and promote a high-quality education, the Pacifica School District Board of Trustees recently voted to place Measure O, a \$55 million local education bond measure on the June 5, 2018 ballot. If approved by 55% of voters, Measure O would:

Improve classrooms, labs and computer systems to support programs in science, technology, English, arts and math

Repair or replace outdated electrical and heating systems

Update classrooms, kitchen facilities and restrooms to stay current with health and safety codes

Build additional classrooms and replace portables as needed

Fix aging and leaking roofs

Fiscal Accountability Measures

This measure would cost property owners no more than \$30 per \$100,000 of assessed value (not market value) per year

All funds would go to PSD, be controlled locally and could not be taken away by the State

An independent citizens' oversight committee and reports to the community would be required to ensure funds are spent as voters intended

For more information about Measure O or to provide your input on school improvements, please visit www.pacificasd.org or contact Superintendent Wendy Tukloff at superintendent@pacificasd.org.
